EDUCATION

Guru Nanak Institute of Technology (GNIT)

B.Tech in Computer Science & Engineering (CGPA: 9.48/10)

Hyderabad, Telangana

Aug 2023 – June 2027

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Web Development: React.js, Node.js, Express.js, Firebase, Flask, REST APIs

Databases & Tools: MongoDB, MySQL, Git, GitHub, Postman, Automation Anywhere, Make.com, n8n

Core Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks, SDLC, Agile, System Design

WORK EXPERIENCE

Agentic AI Intern, Innomatics Research Labs

Jan 2026 – June 2026, Hyderabad

- Developed and tested backend services using Python and REST APIs to support real-time application workflows.
- Performed debugging and validation of data flows, ensuring accuracy and reliability of system outputs.
- Identified and resolved issues in API responses and backend logic, improving overall system performance.
- Collaborated with developers to analyze requirements and enhance system testability and stability.

Full Stack Intern, CourseVita

June 2025 – Jan 2026, Remote

- Designed and tested REST APIs for authentication, data handling, and application workflows.
- Validated application functionality through systematic testing and debugging of backend services.
- Identified bugs and optimized database queries, improving performance and reliability.
- Worked closely with the development team to ensure high-quality feature delivery and system stability.

PROJECTS

NeverMiss – AI Powered Health & Emotional Wellness Assistant | GitHub Python, OCR, NLP, Gen AI

- Developed an AI-powered healthcare assistant, improving medication adherence and wellness management by **40%**.
- Integrated OCR, NLP, and Generative AI, reducing prescription entry effort by **70%**.
- Built caregiver monitoring and health analytics features, reducing missed medication incidents by **30%**.

GigHub – Freelance Marketplace Platform | GitHub

MERN Stack, Socket.io, Razorpay

- Built a full-featured freelance marketplace enabling project posting, talent discovery, hiring, and secure payments.
- Developed real-time chat, notifications, and review mechanisms, increasing user interaction by **35%**.
- Optimized end-to-end freelancing workflows, reducing manual coordination effort by **40%**.

EXTRA CURRICULAR ACTIVITIES

- Solved **250+** Python and SQL problems on LeetCode & HackerRank; recognized as a **College Topper** for academic excellence (2023–2025).
- Mentored **150+** students as **ML Lead, GDG GNI**, conducting workshops on Generative AI, AI Agents, and Agentic Systems.
- Served as **Web Development Lead, TEDxGNI**; contributed to a website with **2000+** visits and secured **1st place** among **150+ teams** in an Agentathon by building LoanFlow AI using Google ADK.

CERTIFICATIONS

- MongoDB Certified: MongoDB Associate Developer
- Oracle Certified: Oracle Cloud Foundations Associate
- Kaggle Certified: Python Developer
